UNIFORMITYS · DRESSED AS ONE

SCHOOL UNIFORMS FOR NEW MARKETS. BRINGING PRIDE TO TOWNSHIP LEARNERS

We source or make quality, affordable school uniforms in Kabokweni, Mpumalanga, serving parents who have never had a constant or local supply.

From two years of trade we have demand that Joburg suppliers can't meet, and the ability to move all manufacture and employment to the township itself.

R5m builds the local factory and shop that the schools around us are waiting for.

UNIFORMITYS
DRESSED AS ONE

Draft for review · November 2026

02 / PROOF

SCHOOLS ARE WAITING ON OUR CAPACITY

4

schools fully on board, plus sales to a handful of others

~10%

of their learners we can supply, held back by three-month lead times from Johannesburg makers

23

schools have expressed real intent to make us their supplier

The next 5 or 6 schools are ready for a full ramp-up. Schools invite Sphiwe to parent meetings and give Uniformitys space for pop-up stalls on their grounds.

Learners in the Mntungwa uniform range: jersey, varsity jacket, golf shirt and skirt.

03 / OPPORTUNITY

FAMILIES TRAVEL TO TOWN FOR UNIFORMS

Up to 40 km
by taxi to town to buy generic uniforms

6 to 10 months
for the town wholesaler to restock some school items

~1,000
learners in a typical secondary school around Kabokweni

New items
golfers, tracksuits and matric wear that schools never had before

Photo: learners in the Ngodini golf shirt and skirt.

NO ONE MAKES LOCALLY AND SERVES EACH SCHOOL

Option today	Local	School branding	Relationship with the school
Town wholesaler, Mbombela	No, up to 40 km by taxi	Some	No
Informal traders	Yes	Generic only	No
Home sewers	Yes	Uneven	Sometimes
Other local suppliers	Yes, from home	Some	Some
Uniformitys	**Yes, own premises from 2027**	**Embroidery and sublimation in-house**	**Agreed with each school**

With its own fabric patterns per school, Uniformitys can become the only supplier able to make a school's uniform.

ONE SCHOOL AT A TIME, SOLD DIRECT TO FAMILIES

1

AGREE THE SCHOOL

Design, colours and crest agreed with the principal or uniform committee

2

SELL TO FAMILIES

WhatsApp orders, school pop-ups and the counter; card, Yoco link, cash or lay-by

3

MAKE LOCALLY

Cut, sew, brand and finish in Kabokweni; about 40% today

4

DELIVER

Collection at the workshop or at school on pickup days

Tailor at work in the Uniformitys workshop.

THE SCHOOL PAYS NOTHING No deposit and no cash-flow risk for the school, which is why schools commit.

ONE SCHOOL OF 1,000 LEARNERS, FULLY SERVED

Per school	Floor	Base	Upside
Spend per learner per year	R750	R1,000	R1,500
Revenue per year	R750k	R1m	R1.5m
Gross margin	45%	50%	50%
Contribution per year	R300k	R450k	R675k

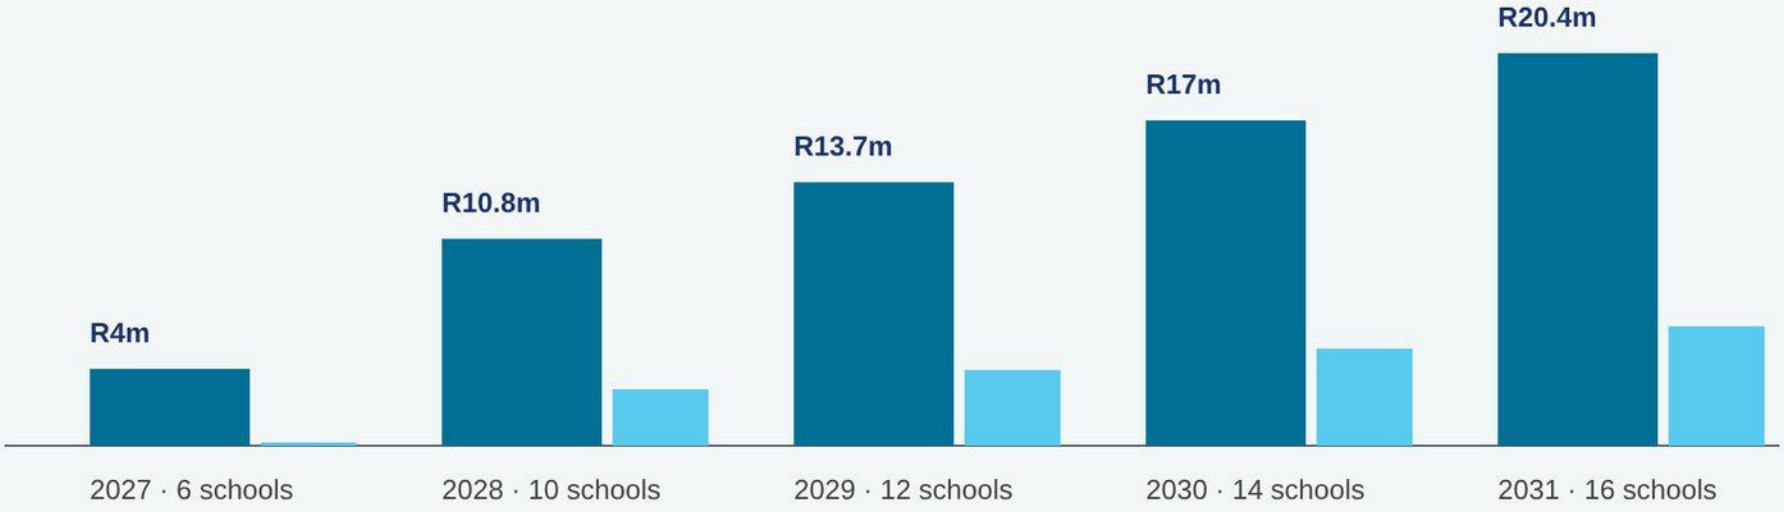

~5

fully served schools cover the factory's fixed costs

Every learner needs a uniform. A family that can afford the full set spends about R1,850 per year; most buy less. The base case of R1,000 per learner means about 3 in 10 learners on the full set. A school reaches this in its first year: the only limit is how much we can make.

07 / GROWTH

CASH POSITIVE IN 2028, GROWING FROM ITS OWN CASH

Base case: R1m per school per year. Floor R750k, upside R1.5m.

FROM 5 JOBS TO 20 IN KABOKWENI

SPHIWE IAN MASINGA

Founder and director

Grew up in Kabokweni. Built Uniformitys from 2024 while working in a call centre, full time since January 2025. Holds the school relationships, runs production and trains the team.

N+1: IMPACT VENTURE PARTNERS

Backer since 2024

Accounts and reporting, strategy, brand, and the ordering, payment and stock system.

The team	People	When
Today: founder, sales assistant, 3 tailors	5	Now
Full factory: sales and shop manager, tailors, embroidery, cutting, printing, stock and distribution	14	From mid-2027
Production hires as schools are added	+6	2029 to 2031

Each hire is released as the schools that need the capacity sign.

09 / USE OF FUNDS AND MILESTONES

R5M IN THREE TRANCHES

TRANCHE 1 · STOCK AND TRADE

R500k

Raw materials and the full shop team through the January season

Sells hard into the 2027 season

TRANCHE 2 · PREMISES AND SHOP

To R1.5m

Own property in Kabokweni, retail counter, ordering and stock system

Serves 6 to 8 schools from mid-2027

TRANCHE 3 · LOCAL PRODUCTION

To R5m

Embroidery, sublimation, printing, knitwear, a full sewing line, a van, fabric and the team of 14

Full factory for the 2028 season, with capacity for about 12 schools

Equipment is quoted by South African suppliers. After the full factory, more capacity comes from cash flow: a few machines and hires at a time.

R5M TO BUILD THE FACTORY AND SHOP IN KABOKWENI

2028

Cash positive, with about R3m EBITDA in the base case

One raise

Growth after the factory is paid from its own cash flow

R3.09m

of the raise buys property and equipment that stay in the business

20 jobs

in Kabokweni by 2031, from 5 today

Terms and returns are set out in the investment note.

WHAT COULD GO WRONG, AND WHAT WE DO

Risk	Answer
Early-stage records	Stock is on paper today; the ordering, payment and stock system goes in with the raise, with monthly management accounts from 2027
Spend per learner lower than planned	At the floor of R750 per learner the business is still EBITDA-positive from 2028; hiring and growth capex slow to match
Production ramp	Divisions start mid-2027, six months before the main season; bought-in supply stays as backup
One founder	Sales and shop manager in 2027; senior lead in each division; N+1 runs accounts and systems
Seasonality	Stock built ahead; lay-by and pay-now-collect-later spread payments; branding and matric wear sell all year
Property	Quote valid to April 2027, with a second building as an option; production can start in the current space
